Subject: Coach Operator Audit Results

#### Recommendation

Receive and file the results of the Coach Operator Audits conducted in May and November of 2013.

### **Analysis**

Coach operator performance audits were conducted during the period of May 22 through May 25, 2013 and November 10 through November 13, 2013 to monitor the performance of Foothill Transit's operations contractors. The performance checks are conducted by Summit Security Services, a professional corporation that performs transit service audits. These performance checks evaluate fare collection, customer relations, and safety.

In order to ensure maximum coverage of Foothill Transit's operational area the audits are conducted at random. Auditors from Summit Security utilize Foothill Transit service as anonymous riders. When the auditor first boards, they will challenge the driver by depositing the incorrect fare or by attempting to use an invalid transfer or pass. If the driver challenges the incorrect fare the auditor will then deposit the correct fare, if not, the occurrence is reported as a fare violation. Once onboard the bus, the auditor will then monitor the coach operator's performance in terms of customer relations and safety.

The chart below summarizes the results of the May and November 2013 audits for each operating facility.

**Table 1** shows the trend of the Coach Operator Audits for Foothill Transit's Arcadia facility.

**Table 2** shows the trend of the Coach Operator Audits for Foothill Transit's Pomona facility.

These items are being addressed directly with both contractors' staff.

Results of the Coach Operator Audit provide Foothill Transit with a tool to monitor and evaluate the performance of operators delivering service. In effort to maintain quality, Foothill Transit's management team reviews the results regularly with the Assistant General Managers and Operations Managers of both operating facilities to receive insight as well as action plans for the areas that need attention.

Foothill Transit's management team continues to work with both operations contractors to maintain and ensure Foothill Transit's high service standards for safety, courtesy, and on-time performance. Moving forward, the coach operator performance audits will be conducted on a quarterly basis in order to measure and document progress in maintaining and improving performance.
